Vol. XI, No. 2

February 1967

JANUARY UNIFORM PRICE \$5.02

Dairy farmers who delivered Grade "A" milk to handlers subject to the Fort Wayne milk order in January 1967 will receive a minimum uniform price of \$5.02 per hundredweight for milk testing 3.5%, subject to a butterfat differential of 7.8 cents. The minimum price is also subject to a 4 cents per hundredweight marketing service deduction to nonmembers, authorized hauling charges, and location differentials.

The \$5.02 price for January 1967 is 5 cents under the December 1966 price, but 78 cents above the January 1966 price.

PRODUCER RECEIPTS AND UTILIZATION

There were 798 approved producers who shipped 23,885,518 pounds of milk to the Fort Wayne market during January 1967 of which 16,944,425 pounds or 70.9% was utilized in Class I by 13 pooled handlers. Class I utilization was down 2.7% from December. On a volume basis, production was up 12%, and Class I utilization of producer milk was up 7.9% from December 1966.

PROPOSED AMENDMENTS TO THE FORT WAYNE ORDER

A hearing was held in Fort Wayne on February 9, in regard to proposals by Wayne Cooperative Milk Producers, Inc. and Allen Dairy Products, Inc. These proposals would amend Sections 1047.62(b) and 1047.71(h) so that withholdings under the "Louisville Plan" in April, May, and June would be changed from 8% of the Class I price to a flat 20 cents in April and 25 cents in May and June. There would be no change in the pay-back provisions of the order, i. e., 1/3 of the total amount withheld would be paid back in each of the months of September, October, and November.

FEBRUARY CLASS I PRICE \$5.44

The effective basic formula price, as established by the amendment to §1047.50 of the Fort Wayne order, of \$4.26 was increased by the standard differential of \$1.20 and reduced by a supply-demand adjustment of 2¢ to establish the February Class I price of \$5.44. This price of \$5.44 is the same as the January 1967 Class I price, but 75¢ more than the February 1966 price.

ESTIMATED PERCENTAGES IN EACH CLASS (Announced February 10, 1967)

The Market Administrator announced the following estimated utilization percentages for the month of January for use in allocating bulk milk receipts from other Federal markets:

Class I:	Skim	71%	Butterfat	59%
